Vincke and Verstuyft are detectives of the Antwerp police department. This time they have to deal with the Albanian mob and some problems in their own police division. DOSSIER K. is the long anticipated successor to 'The Alzheimer Case' which won numerous awards and was sold to over 30 countries, among which the US (where it was released through Sony Picture Classics). This second film based on a novel by Jef Geeraerts is a dense European thriller about passion, betrayal, revenge, blind ambition and the inevitability of fate. Set against the realistic background of Albanian mafia in Antwerp, the story brings the main characters Erik Vincke and Freddy Verstuyft into a disastrous vortex from which no one seems to escape. this is one of the finer products of Belgian cinema.

jan verheyen, truly transcended his own abilities, by delivering this excellent piece of work. this is a very well directed story, brought in a gritty, visual style. the acting is class. the story is well paced, balanced. the casting was beyond excellent. especially the Albanian actors convinced very much. also an impressive composed soundtrack which have all the right elements to translate the gloominess, drama and tragedy very well.

if you like drama, you'll love this, if you like crimemovies, I can recommend this the only minor point to me are some jokes, but those that didn't ruin the whole movie experience for me. highly recommendable, not only for Belgian/dutch/Albanian people, but truly for everyone Dossier K is a very well-made thriller, with all the right ingredients. It has an intelligent plot with an exotic Albanian twist, good use of locations in Antwerp, interesting characters even for some of the bad guys, some exciting shoot-outs and car crashes, and a hint of romance. It's a high-paced, adrenalin-soaked movie without any flaws.

On the other hand: it's just that. A well made thriller, a little bit better than the run-of-the-mill Hollywood product, but not much. It's quality entertainment, but not a movie that sticks in your mind afterward. Nor does it offer any food for thought or discussion. The good thing is, it doesn't pretend to be more than it is. 646f9e108c
